## Shopify Sales Tax Integration: It's Sales Tax, Simplified!

Powered by Sovos, the 35 year leader in tax filing compliance, Taxify is the first effortless sales tax platform, providing sales tax compliance and automation on a beautiful self-service software platform that is affordable for any sized business.

### How does Shopify work with Taxify?

- The connection between Taxify and your Shopify store is thorough, but set up is quick and easy.
- Your Shopify products, orders, and sales tax will all be synced.
- Get a rooftop-level sales tax gap analysis.
- Taxify supports sales tax filings in every state, in thousands of jurisdictions. Just tell us where you remit sales tax and we'll create the return for you.
- Make on-time tax payments and filings via Taxify's AutoFile technology.

#### AUTOMATED FILING

Tax reporting on cruise control with Taxify's AutoFile capability.

#### EASY TO INSTALL

The Taxify Shopify integration takes only a minute to set up.

#### OUT-OF-THIS-WORLD SUPPORT

We're here for you. To save you money and time.

"From the top down, Taxify gets it... This type of support is a rarity today, something that is hard to find with new tech companies... But what was most impressive was they delivered a solution that was accurate and approved by our CPA." - Paul's Bakery
