# Xero Sales Tax Integration: Seamless Sales Tax

Powered by Sovos, the 35 year leader in tax filing compliance, Taxify is the first effortless sales tax platform, providing sales tax compliance and automation on a beautiful self-service software platform that is affordable for any sized business.

## How does Xero work with Taxify?

- The connection between Taxify and your Xero account is thorough, but set up is quick and easy.
- Your products, chart of accounts, bank accounts, bills, and payments will all be synced.
- Analyze your product types and applicable tax jurisdictions, as well as calculate the sales tax due on invoices.
- Automatically create liabilities for sales tax due in your Xero chart of accounts.
- Make on-time tax payments and filings via Taxify’s AutoFile technology, tracked back to your bills and payments.

|                                  |  |                                                                    |
|----------------------------------|--|--------------------------------------------------------------------|
| <b>AUTOMATED FILING</b>          |  | Tax reporting on cruise control with Taxify’s AutoFile capability. |
| <b>MULTI-CHANNEL SOLUTION</b>    |  | Tax from all of your channels, with no duplicates.                 |
| <b>OUT-OF-THIS-WORLD SUPPORT</b> |  | We’re here for you. To save you money and time.                    |

“The whole process was phenomenal from education to sales to customer support. Taxify creates peace of mind that from a tax perspective, but also that I have the support I need if anything comes up.”

- Cynex Consulting
